

Stow-Munroe Falls City School District Permanent Improvement Projects

Thanks to the support of the Stow and Munroe Falls communities, the Stow-Munroe Falls City School District was able to pass a Permanent Improvement (PI) levy in November of 2016. This investment in our schools will allow us to continually maintain and improve our district's buildings to meet the needs of our students.

Once the levy passed, we wasted no time beginning to make the improvements that are and will be paid for out of PI funds. Below is a list of all of the projects completed so far, as well as projects planned for in the future.

2016-2017 School Year Improvements
